PROVEN, EMPOWERING TREATMENT

## *Intervention Services*

*Sometimes, outside support can assist a family to come together and help a loved one suffering from addiction.*

*Our intervention service provides on-location counsellor support to the family and client in making the, sometimes difficult, decision to engage in treatment.*

## *Proven, Empowering Treatment*

*Our abstinence-based treatment programmes are powerfully effective and proven to work. We are field-leaders and utilize only the best proven evidence-based practices in our facility.*

*We address not only the symptoms but the root sources of addiction difficulties. Our programmes empower clients with the strategies and confidence to regain control of their lives, helping them achieve lifelong recovery and peace of mind.*

## *Integrated Dual Diagnosis*

*Our integrated process simultaneously treats the addictive behaviour and any underlying trauma, mental health issues or psychological root sources that contribute to addictive behaviour.*

*“We will support and guide you through the entire process from the first phone call, to the end of the aftercare and beyond. We are always at the other end of the phone.”*

## *Family Programme*

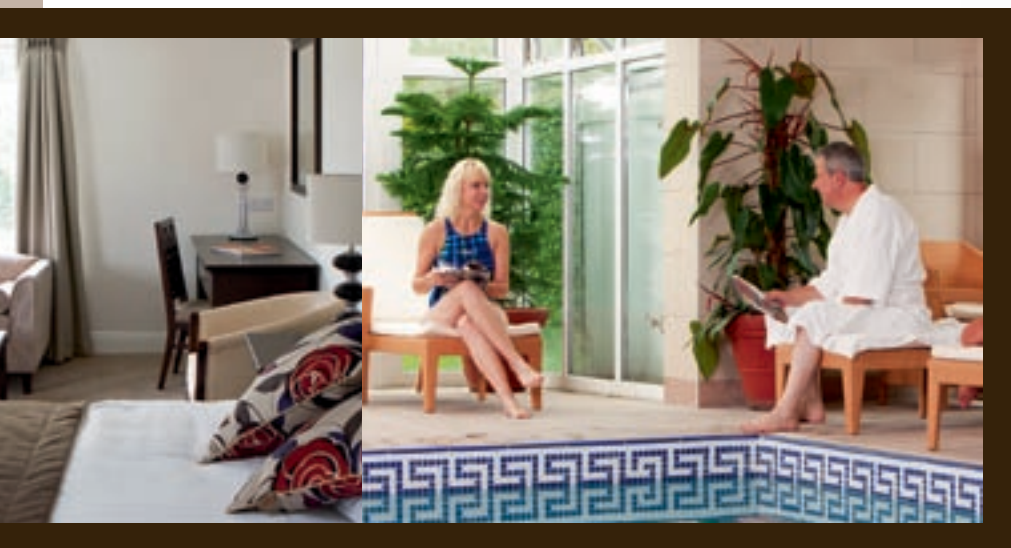

*We recognise that treatment does not start and end with the individual. As such an important aspect of care, we developed pioneering programmes specific to the needs of family members. Family programmes offer treatment that is part of the care plan for the individual and also specific to their needs.*

## *Comprehensive Extended Care*

*Success does not often come overnight. Our comprehensive 1-3 year long after care programme is integral to the successful recovery of our clients. During this programme we address the issues that can arise in the months following recovery for the individual and their families.*

## *Alumni Programmes*

*Our clients have made a courageous decision to change their lives and they are now part of a greater recovery community. We organise regular activities and events, host a moderated online forum, and provide ongoing access to services for all of our clients as they explore to possibilities of their new found lives.*

*The freedom to live*

## *Natural lifestyle in an idyllic setting*

*We offer detoxification and rehabilitation programmes for clients who need to break free of alcohol abuse, drug dependency, eating difficulties, gambling, sex addiction and other addictive or compulsive behaviours. Whether our clients are public figures, senior executives, or individuals seeking to rebuild their lives, we treat everyone with equal respect, discretion and compassion.*

*Our goal in establishing Toranfield House was to create an environment in which our clients have the greatest prospect for change. Anyone suffering from addiction will receive all the help they need to recover in a safe, peaceful, luxurious and non-institutional environment. A place one can recover in absolute privacy.*
